

Częstochowa 20.03.2009r.

**RECOMMENDATION**

Herby we state that tyres produced by Magna Tyres Group are worth to be recommended to any user of heavy equipment.

We base that recommendation on several years of experience with MAGNA brand in Poland. In that time the tyres proved to be reliable and fully corresponding to our expectations. BUDPOL Construction uses tyres MAGNA MA01 and MA02 23,5R25 (TEREX TA27, KOMATSU HM300) and MAGNA MA02 29,5R25 (KOMATSU HM400, VOLVO A40D).

MAGNA Tyres can be reasonable alternative to any leading Premium product available on the market.
